**UV Free Tanning is NOT  
subject to Tan Tax**

Tanning Oasis uses only authorized solution in our MagicTan. It's not the least expensive but it is by far the best! For premium results, shower, shave and exfoliate before coming into the salon. Do not use moisturizer as it acts as a barrier cream. Do use the specially formulated prep gel available in the salon. Follow all the instructions written and communicated by the tanning attendant. For more personal attention, please make an appointment, however this is not required. Plan not to shower or workout for 4-6 hours after spraying allowing your tan to develop fully and ensure lasting results. Take your UV tan to the next level or use alone, MagicTan delivers ultimate results.
